CERTIFIED PUBLIC ACCOUNTANTS PLLC

INDEPENDENT AUDITORS' REPORT

To the Board of Education
Skaneateles Central School District, New York

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Skaneateles Central School District, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise Skaneateles Central School District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Skaneateles Central School District, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Skaneateles Central School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Skaneateles Central School District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Skaneateles Central School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Skaneateles Central School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Skaneateles Central School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in the District's total OPEB liability and related ratios, schedule of revenues, expenditures and changes in fund balance - budget (non-GAAP basis) and actual - general fund, schedule of district contributions, and the schedule of the District's proportionate share of the net pension liability on pages 4-12 and 53-56 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Skaneateles Central School District's basic financial statements. The combining and individual nonmajor fund financial statements and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, the schedule of change from adopted budget to final budget and the real property tax limit, schedule of project expenditures – capital projects fund and net investment in capital assets are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, the schedule of change from adopted budget to final budget and the real property tax limit, schedule of project expenditures – capital projects fund and net investment in capital assets are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements the schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, the schedule of change from adopted budget to final budget and the real property tax limit, schedule of project expenditures – capital projects fund and net investment in capital assets are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 4, 2022 on our consideration of Skaneateles Central School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Skaneateles Central School District's internal control over financial reporting and compliance.

**SKANEATELES CENTRAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2022**

The following is a discussion and analysis of the School District's financial performance for the fiscal year ended June 30, 2022. This section is a summary of the School District's financial activities based on currently known facts, decisions, and/or conditions. It is also based on both the government-wide and fund-based financial statements. The results of the current year are discussed in comparison with the prior year, with an emphasis placed on the current year. This section is only an introduction and should be read in conjunction with the School District's financial statements, which immediately follow this section.

Financial Highlights

At the close of the fiscal year, the total assets plus deferred outflows exceeded its total liabilities plus deferred inflows (what the district owes) by \$13,756,592 (net position), an increase of \$7,088,656 from the prior year.

As of the close of the fiscal year, the School District's governmental funds reported combined fund balance (deficit) of \$(11,324,982), a decrease of \$7,055,616 in comparison with the prior year. The majority of the decrease is attributable to the ongoing capital project, which had a net decrease of \$8,545,392. This decrease is from the capital expenditures related to the project. The capital project is funded with \$32,162,936 of outstanding bond anticipation notes, which when converted to long-term debt will be recorded as an other financing source, which will reduce the deficit in the capital projects fund.

General revenues, which includes Real Property Taxes, Non Property Taxes, State and Federal Aid, Investment Earnings, Compensation for Loss, and Miscellaneous accounted for \$34,247,655, or 97% of all revenues. Program specific revenues in the form of Charges for Services and Operating Grants and Contributions, accounted for \$1,002,744, or 3% of total revenues.

Overview of the Financial Statements

This management discussion and analysis is intended to serve as an introduction to the School District's basic financial statements. The School District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains individual fund statements and schedules in addition to the basic financial statements.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the School District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the School District's assets plus deferred outflow of resources and liabilities plus deferred inflow of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

**SKANEATELES CENTRAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2022**

The *governmental* activities of the School District include instruction, pupil transportation, cost of food sales, general administrative support, community service, and interest on long-term debt.

The government-wide financial statements can be found on the pages immediately following this section as the first two pages of the basic financial statements.

Fund Financial Statements

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance related legal requirements. All of the funds of the School District can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the School District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The School District maintains six individual governmental funds; the General Fund, Special Aid Fund, School Lunch Fund, Special Revenue Fund, Debt Service Fund and Capital Projects Fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund and the capital projects fund, which are reported as major funds. Data for the special aid fund, the school lunch fund, the special revenue fund and the debt service fund are aggregated into a single column and reported as non-major funds. The financial statements for the governmental funds can be found in the basic financial statement section of this report.

The School District adopts and voters approve an annual budget for its General Fund. A budgetary comparison statement has been provided for the General Fund within the basic financial statements to demonstrate compliance with the budget.

The *Fiduciary Funds* are used to account for assets held by the School District whereby the fiduciary activities and the relevant reporting is based on whether the District is controlling the assets of the fiduciary activity and the beneficiaries with whom a fiduciary relationship exists. Fiduciary funds are not reflected in the government-wide financial statement because the resources of these funds are *not* available to support the School District's programs. The District has no fiduciary funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found following the basic financial statement section of this report.

**SKANEATELES CENTRAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2022**

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all the School District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets plus deferred outflow of resources and liabilities plus deferred inflow of resources, is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively. Additional non-financial factors such as changes in the District's property tax base and the condition of the school buildings and facilities must also be considered to assess the District's overall health.

All of the District's services are reported in the government-wide financial statements as governmental activities. Most of the District's basic services are included here, such as regular and special education, transportation and administration.

Property taxes, federal and state aid, and investment earnings finance most of these activities.

**SKANEATELES CENTRAL SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2022**

Net Position (continued)

The District's financial position is the product of many factors.

By far, the largest component of the School District's net position reflects its investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The School District uses these capital assets to provide services to the students and consequently, these assets are not available for future spending. Although the School District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

There are three restricted net asset balances, reserve funds, student activities and scholarships, grants, other. The reserves established by the District in accordance with New York State General Municipal Law and New York State Education Law. The capital reserves are established based on a vote by taxpayers in the district. The remaining balance of unrestricted net position is a deficit of \$33,869,978, as a result of the obligation relating to other postemployment benefits (retiree health) and pension obligations.

Changes in Net Position

The School District's total revenue (general and program) increased 3% to \$36,388,641. State and federal aid (19%) and property taxes (74%) accounted for most of the District's revenue. The remaining (7%) of the revenue comes from operating grants, charges for services, nonproperty taxes, investment earnings, compensation for loss, and miscellaneous revenues. The District had an increase in federal grant monies of \$613,756, primarily from increased grant monies related to the Education Stabilization Fund (ESF), which increased to \$530,650 compared to \$116,110 in the previous year.

The total cost of all the programs and services decreased 10.2% to \$29,299,985. The School District's expenses are predominately related to education and caring for the students, or instruction (75%). General support, which included expenses associated with the operation, maintenance and administration of the School District, accounted for 15% of the total costs. The most significant decreases are related to long term benefits that the District provides, including participation in the Teacher's Retirement System and Other post-employment benefits (OPEB). Total benefits paid on a current basis were \$6,031,136, an increase of \$535,435 or 9.6%. Benefits also have an estimated long-term impact to the District. Long term benefits, including the TRS pension plan and OPBB, decreased \$3,227,318 which were primarily based on changes in actuarial assumptions and based on current market conditions at the measurement dates of those long term benefits. These long-term impacts are not funded on current basis but represent the long term cost of the District's benefits to employees. See table on the following page.

Financial Analysis of the School District's Funds

The short-term financial performance of the District is reflected in its governmental funds. As the District completed the year, its governmental funds reported combined fund balances (deficit) of \$(11,324,982, which is a decrease of \$7,055,616 compared to previous year. This decrease is primarily from the ongoing capital project (project 2021) at the District.

The General Fund is the chief operating fund of the District. At the end of the current year, the total fund balance of the General Fund was \$15,723,280. Fund balance for the General Fund increased by \$1,091,503 related to 2022 operations.

General Fund Budgetary Highlights

The difference between the original budget of \$34,037,540 and the final amended budget was \$172,253. This change is attributable to carryover encumbrances from the 2019-20 school year. Expenses were under budget by \$3,167,624, primarily related to instruction of \$1,193,720 and employee benefits of \$953,706.

Capital Asset and Debt Administration

Capital Assets

By the end of the 2021-22 fiscal year, the District had invested \$79,839,158 in a broad range of capital assets, including land, work in progress, buildings and improvements, and machinery and equipment. The increase in the capital assets is primarily due to the ongoing capital project (project 2021). The change in capital assets, net of accumulated depreciation, is reflected below:

The pension asset/liability represents the proportionate share of the pension asset/liability primarily related to the ERS pension (measured as of 3/31/2022) and the TRS pension asset/liability is measured as of 6/30/21. In 2021, the total liability for ERS and TRS was \$1,893,487 while in 2022, the District's proportionate share was a total asset of \$13,236,556, a change of \$15,130,043 compared to prior year. This was due to the timing of the measurement dates and the Plan's fiduciary net position on those measurement dates. More detailed information can be found in the notes to the financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Year Ended June 30, 2022**

Factors Bearing on the District's Future

Property Tax Cap - During 2011, the Governor signed Chapter 97 of the Laws of 2011, Part A- Property Tax Cap, affecting all local governments and establishing a property tax cap. The tax cap went into effect for the District's 2012-13 budget and under this law the growth in the property tax levy, the total amount to be raised through property taxes charged on the District's taxable assessed value of property, is capped at two percent or the rate of inflation, whichever is less, with some exceptions. The exclusions provided in the formula (pension costs and debt service) can be difficult to forecast and thus, have a dramatic impact on the tax cap limit.

Contacting the School District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. SKANEATELES CENTRAL SCHOOL DISTRICT

Notes to the Financial Statement

For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies

The financial statements of the Skaneateles Central School District, New York (the District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A) Reporting Entity

The Skaneateles Central School District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education consisting of seven members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The reporting entity of the District is based upon criteria set forth by GASB Statement 14, *The Financial Reporting Entity*, as amended by GASB Statement 39, *Component Units* and GASB Statement No. 61, *The Financial Reporting Entity*. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, the following is a brief review of certain entities included in the District's reporting entity.

i) Extraclassroom Activity Funds

The extraclassroom activity funds of the District represent funds of the students of the District. The Board of Education exercises general oversight of these funds. The extraclassroom activity funds are independent of the District with respect to its financial transactions, and the designation of student management. Separate audited financial statements of the extraclassroom activity funds can be found at the District's business office. The District accounts for assets held for various student organizations in a special revenue fund.

B) Joint Venture

The District is a component of the Cayuga-Onondaga Counties Board of Cooperative Education Services (BOCES). The BOCES is a voluntary, cooperative association of school districts in a geographic area that shares planning, services, and programs which provide educational and support activities. There is no authority or process by which a school district can terminate its status as a BOCES component.

SKANEATELES CENTRAL SCHOOL DISTRICT

Notes to the Financial Statement

For the Year Ended June 30, 2022

Note 1 – Summary of Significant Accounting Policies (continued)

BOCES are organized under §1950 of the New York State Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the New York State Education Law. All BOCES property is held by the BOCES Board as a corporation (§1950(6)). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n (a) of the New York State General Municipal Law.

A BOCES' budget is comprised of separate budgets for administrative, program, and capital costs. Each component school district's share of administrative and capital cost is determined by resident public school district enrollment as defined in Education Law, Section 1950(4)(b)(7). In addition, component districts pay tuition or a service fee for programs in which its students participate.

During the year, the District was billed \$3,179,223 for BOCES administrative and program costs. The District's share of estimated BOCES aid amounted to \$843,429. As of June 30, 2022, \$630,615 of this estimated aid is recorded as a receivable in the General Fund.

Financial statements for the BOCES are available from the BOCES administrative office.

C) Basis of Presentation

i) Districtwide Statements

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, state aid, intergovernmental revenues, and other exchange and non-exchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital specific grants.

The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Indirect expenses, principally employee benefits, are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include charges paid by the recipients of goods or services offered by the programs, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Note 1 – Summary of Significant Accounting Policies (continued)

ii) **Fund Statements**

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category (governmental and fiduciary) are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

The District reports the following governmental funds:

a. **Major Governmental Funds**

General Fund - This is the District's primary operating fund. It accounts for all financial transactions that are not required to be accounted for in another fund.

Capital Projects Fund - Used to account for the financial resources used for acquisition, construction, or major repair of capital facilities.

b. **Non-major Governmental - The other funds which are not considered major are reported as non-major governmental funds as follows:**

Special Aid Fund - This fund accounts for the proceeds of specific revenue sources, such as federal and state grants, that are legally restricted to expenditures for specified purposes. These legal restrictions may be imposed either by governments that provide the funds, or by outside parties.

Special Revenue Fund - Used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The District's Extracurricular Activities and scholarships are accounted for in a special revenue fund.

School Lunch Fund - Used to account for transactions of the District's lunch, breakfast and milk programs.

Debt Service Fund - This fund accounts for the accumulation of resources and the payment of principal and interest on long-term obligations for governmental activities.

c. **Fiduciary - Fiduciary activities are those in which the District acts as trustee or agent for resources that belong to others. These activities are not included in the District-wide financial statements, because their resources do not belong to the District, and are not available to be used. There are four classes of fiduciary funds available, including (1) pension (and other employee benefit) trust funds, (2) investment trust funds, (3) private-purpose trust funds, and (4) custodial funds. The District currently has no transactions that meet the requirements to be recorded in fiduciary funds.**

D) Measurement Focus and Basis of Accounting

Accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The District-Wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants and donations. On an accrual basis revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 90 days after the end of the fiscal year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

E) Property Taxes

Real property taxes are levied annually by the Board of Education no later than September 1. Taxes are collected during the period September 4th to November 1, 2021.

Uncollected real property taxes are subsequently enforced by the Counties of Cayuga and Onondaga in which the District is located. The Counties pay an amount representing uncollected real property taxes transmitted to the Counties for enforcement to the District no later than the following April 1.

F) Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these notes.

Note 1 – Summary of Significant Accounting Policies (continued)

G) Interfund Transactions

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowing. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include the transfer of expenditures and revenues to provide financing or other services.

In the District-wide statements, the amounts reported on the Statement of Net Position for interfund receivables and payables represent amounts due between different fund types (governmental activities and fiduciary funds). Eliminations have been made for all interfund receivables and payables between the funds, with the exception of those due to or from the fiduciary funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables may be netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

H) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources and disclosure of contingent assets and liabilities at the date of the financial statements and the reported revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including computation of encumbrances, compensated absences, potential contingent liabilities and useful lives of long-lived assets.

I) Cash and Cash Equivalents

The District's cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

New York State Law governs the District's investment policies. Resources must be deposited in FDIC-insured commercial banks or trust companies located within the State. Permissible investments include obligations of the United States Treasury, United States Agencies, repurchase agreements and obligations of New York State or its localities.

Collateral is required for demand and time deposits and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State and its municipalities and Districts.

J) Receivables

Receivables are shown net of an allowance for uncollectible accounts, when applicable.

No allowance for uncollectible accounts has been provided since it is believed that such allowance would not be material.

K) Inventory and Prepaid Items

Inventories of food and/or supplies for school lunch are recorded at cost on a first-in, first-out basis or, in the case of surplus food, at stated value which approximates market. Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the District-wide and fund financial statements. These items are reported as assets on the statement of net position or balance sheet using the consumption method. A current asset for the prepaid amounts is recorded at the time of purchase and an expense/expenditure is reported in the year the goods or services are consumed.

A non-spendable fund balance for these non-liquid assets (inventories and prepaid items) has been recognized to signify that a portion of fund balance is not available for other subsequent expenditures.

L) Capital Assets

In the District-wide financial statements, capital assets are accounted for at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their acquisition value at the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. A capitalization threshold of \$5,000 is used to report capital assets. The range of estimated useful lives by type of assets is as follows:

<u>Class</u>	<u>Capitalization Threshold</u>	<u>Depreciation Method</u>	<u>Estimated Useful Life</u>
Buildings	\$50,000	Straight-line	15-50 years
Machinery and Equipment	\$5,000	Straight-line	5 - 25 years

The investment in infrastructure type assets have not been segregated for reporting purposes since all costs associated with capital projects are consolidated and reported as additions to buildings and improvements.

M) Unearned Revenue

The District reports unearned revenues on its Statement of Net Position and its Balance Sheet. On the Statement of Net Position, unearned revenue arises when resources are received by the District before it has legal claim to them, as when grant monies are received prior to incurrence of qualifying expenditures. In subsequent periods, when the District has legal claim to resources, the liability for unearned revenue is removed and revenue is recognized.

N) Deferred Outflows and Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expenses/expenditure) until then. The District may have four items that qualify for reporting in this category. First is the deferred charge on refunding reported in the government-wide Statement of Net Position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension asset or liability and difference during the measurement period between the District's contributions and its proportion share of total contributions to the pension systems not included in pension expense. The third item is the District contributions to the pension systems (TRS and ERS Systems) subsequent to the measurement date. The fourth item relates to OPEB reporting in the district-wide Statement of Net Position. This represents the effect of the net change in the actual and expected experience.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District may have three items that qualify for reporting in this category. First arises only under a modified accrual basis of accounting and is reported as unavailable revenue-property taxes. The second item is related to pensions reported in the district-wide Statement of Net Position. This represents the effect of the net change in the District's proportion of the collective net pension liability (ERS System) and difference during the measurement periods between the District's contributions and its proportion share of total contributions to the pension systems not included in pension expense. The third item is related to OPEB reported in the district-wide Statement of Net Position. This represents the effect of the net changes of assumptions or other inputs.

O) Vested Employee Benefits

i) Compensated Absences

District employees are granted vacation in varying amounts, based primarily on length of service and service position. Some earned benefits may be forfeited if not taken within varying time periods.

Sick leave eligibility and accumulation is specified in negotiated labor contracts and in individual employment contracts.

Upon retirement, resignation or death, employees may receive a payment based on unused accumulated sick leave, per contractual provisions.

An accrual for accumulated sick leave is included in the compensated absences liability at year end. The compensated absences liability is calculated based on the contractual pay rates in effect at year end.

P) Other Benefits

District employees participate in the New York State Employees' Retirement System and the New York State Teachers' Retirement System.

In addition to providing pension benefits, the District provides post-employment health coverage to retired employees in accordance with the provision of various employment contracts in effect at the time of retirement. Substantially all of the District's employees may become eligible for these benefits if they reach normal retirement age while working for the District. Health care benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits may be shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure.

District employees may choose to participate in the District's elective deferred compensation plans established under Internal Revenue Code Sections 403(b) and 457. Eligible District employees may voluntarily elect to make contributions by payroll deduction to the Plans subject to the terms and conditions of the Plans and subject to limits set by the Internal Revenue Code. The District does not make any elective contributions to the Plans, all contributions are from employees. These Plans are considered other employee benefit plans and are not considered fiduciary activities as defined in GASB Cod. 1300, as such the financial activity of the Plans are excluded from these financial statements.

Q) Short-Term Debt

The District may issue Bond Anticipation Notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that a BAN issued for capital purposes be converted to long-term financing within five years after the original issue date.

R) Accrued Liabilities and Long-Term Obligations

Payables, accrued liabilities, and long-term obligations are reported in the district-wide financial statements. In the governmental funds, payables and accrued liabilities are paid in a timely manner and in full from current financial resources. Claims and judgments, other postemployment benefits payable and compensated absences that will be paid from governmental funds are reported as a liability in the funds financial statements only to the extent that they are due for payment in the current year. Bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Long-term obligations represent the District’s future obligations or future economic outflows. The liabilities are reported as due in one year or due within more than one year in the Statement of Net Position.

S) Equity Classifications

i) District-Wide Statements

In the District-wide statements, there are three classes of net position:

- a. Net Investment in Capital Assets - consists of net capital assets (cost less accumulated depreciation) reduced by outstanding balances of related debt obligations from the acquisition, constructions or improvements of those assets.
- b. Restricted Net Position - reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

On the Statement of Net Position, the following balances represent the restricted net position:

Description	
Reserve funds	\$ 9,500,348
Scholarships, grants and other	321,315
Extraclassroom Activities	<u>107,645</u>
Restricted Net Position	<u>\$ 9,929,308</u>

- c. Unrestricted Net Position - reports the balance of net position that does not meet the definition of the above two classifications and is deemed to be available for general use by the District.

ii) **Fund Statements**

In the fund basis statements there are five classifications of fund balance:

- a. Nonspendable Fund Balance – Includes amounts that cannot be spent because they are either not in spendable form or legally or contractually required to be maintained intact. Nonspendable fund balance includes inventory in school lunch totaling \$10,165.
- b. Restricted Fund Balances - Includes amounts with constraints placed on the use of resources either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation. All encumbrances of funds other than the general fund are classified as restricted fund balance. The District has established the following restricted reserve balances:

Capital Reserve - According to Education Law §3651, must be used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term and the source of the funds. Expenditures may be made from the reserve only for a specific purpose further authorized by the voters. The form for required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. The Reserve is accounted for in the General Fund under restricted fund balance. Year-end balances are as follows:

<u>Name of Reserve</u>	<u>Maximum Funding</u>	<u>Total Funding Provided</u>	<u>Total Year-to-Date Balance</u>
Capital reserve 2020	\$2,500,000	\$2,500,000	\$2,500,000
Capital reserve 2018	\$2,500,000	\$2,500,000	\$2,500,000

Employee Benefit Accrued Liability Reserve - According to General Municipal Law §6-p, must be used for the payment of accrued employee benefits due to an employee upon termination of the employee’s service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated.

Note 1 – Summary of Significant Accounting Policies (continued)

Repair Reserve - According to General Municipal Law §6-d, must be used to pay the cost of repairs to capital improvements or equipment, which repairs are of a type not recurring annually. The Board of Education, without voter approval, may establish a repair reserve fund by a majority vote of its members. Voter approval is required to fund this reserve (Opinion of the New York State Comptroller 81-401). Expenditures from this reserve may be made only after a public hearing has been held, except in emergency situations. If no hearing is held, the amount expended must be repaid to the reserve fund over the next two subsequent fiscal years.

Tax Certiorari Reserve - According to General Municipal Law §3651.1-a, must be used to establish a reserve fund for tax certiorari claims and to expend from the fund without voter approval. The monies held in the reserve shall not exceed the amount, which might reasonably be deemed necessary to meet anticipated judgments and claims arising out of tax certiorari proceedings. Any resources deposited to the reserve which are not expended for tax certiorari proceeding in the year such monies are deposited must be returned to the General Fund on or before the first day of the fourth fiscal year after deposit of these monies.

Retirement Contribution Reserve - According to General Municipal Law §6-r all expenditures made from the retirement contributions reserve fund must be used for financing retirement contributions to the New York State and Local Employees' Retirement System. The reserve must be accounted for separate and apart from all other funds and a detailed report of the operation and condition of the fund must be provided to the Board.

Teachers' Retirement Reserve – General Municipal Law §6r was amended effective April 1, 2019. A Board may adopt a resolution establishing a sub-fund for contributions to the New York State Teachers' Retirement System. During a fiscal year, the Board may authorize payment into the subfund of up to 2% of the total covered salaries paid during the preceding fiscal year, with the total amount funded not to exceed 10% of the total covered salaries during the preceding fiscal year. The sub-fund is separately administered, but must comply with all the existing provisions of General Municipal Law §6-r.

Restricted reserve fund balances include the following:

General fund:

Capital	\$	5,000,000
Employee retirement contribution		2,142,972
Teacher's retirement contribution		945,359
Tax certiorari		460,570
Repair		5,000
Unemployment insurance		170,000
Employee benefit accrued liability		776,447
Total restricted reserve funds	\$	<u>9,500,348</u>

- c. Committed - Includes amounts that can only be used for the specific purposes pursuant to constraints imposed by formal action of the school districts highest level of decision making authority, i.e., the Board of Education. The District has balances pertaining to extraclassroom activity funds (ECA) and other student activities classified as committed fund balances as of June 30, 2022.
- d. Assigned Fund Balance – Includes amounts that are constrained by the District’s intent to be used for specific purposes, but are neither restricted nor committed. All encumbrances of the General Fund are classified as assigned fund balance. Encumbrances represent purchase commitments made by the District’s purchasing agent through their authorization of a purchase order prior to year-end. The District assignment is based on the functional level of expenditures.

Encumbrances - Encumbrance accounting, under which purchase orders, contracts and other commitments of expenditures are recorded for budgetary control purposes in order to reserve applicable appropriations, is employed as a control in preventing over-expenditure of established appropriations. Open encumbrances are reported as restricted fund balance in all funds other than the General Fund and the School Lunch Fund, since they do not constitute expenditures or liabilities and will be honored through budget appropriations in the subsequent year. Management has determined significant encumbrances for the General Fund to be \$766,369.

- e. Unassigned Fund Balance –Includes all other general fund amounts that do not meet the definition of the above four classifications and are deemed to be available for general use by the school district and could report a surplus or deficit. In funds other than the general fund, the unassigned classification is used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted or assigned.

NYS Real Property Tax Law 1318 limits the amount of unexpended surplus funds a school district can retain to no more than 4% of the District’s budget for the general fund for the ensuing fiscal year. Nonspendable and restricted fund balance of the general fund are excluded from the 4% limitation. Amounts appropriated for the subsequent year and encumbrances are also excluded from the 4% limitation. The District exceeded the 4% limitation as of June 30, 2022.

Note 1 – Summary of Significant Accounting Policies (continued)

- f. Net Position/Fund Balance - Net Position Flow Assumption: Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the district-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

Fund Balance Flow Assumption: Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned and unassigned fund balance the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied.

iii) **Order of Use of Fund Balance**

The District’s policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year. For all funds, nonspendable fund balances are determined first and then restricted fund balances for specific purposes are determined. Any remaining fund balance amounts for funds other than the general fund are classified as restricted fund balance. In the general fund, the remaining amounts are reported as unassigned. Assignments of fund balance cannot cause a negative unassigned fund balance.

T) New Accounting Standards

The District has adopted all current Statements of the Governmental Accounting Standards Board (GASB) that are applicable. At June 30, 2022, the District implemented the following new standards issued by GASB:

GASB issued Statement 87, *Leases*, which was implemented by the District in the current year. The adoption of this new standard was not significant to the District.

U) Future Changes in Accounting Standards

GASB has issued Statement 96, *Subscription-Based Information Technology Arrangements (SBITA)*, which will be effective for reporting periods beginning after June 15, 2022.

GASB has issued Statement 101, *Compensated Absences*, which will be effective for fiscal years beginning after December 15, 2023.

The District will evaluate the impact each of these pronouncements may have on its financial statements and will implement them as applicable and when material.

SKANEATELES CENTRAL SCHOOL DISTRICT

Notes to the Financial Statement

Note 2 - Stewardship, Compliance and Accountability

By its nature as a local government unit, the District is subject to various federal, state and local laws and contractual regulations. An analysis of the District's compliance with significant laws and regulations and demonstration of its stewardship over District resources follows.

A) Budgets

The District administration prepares a proposed budget for approval by the Board of Education for the General Fund.

The voters of the District approved the proposed appropriation budget for the general fund, totaling \$35,918,226.

Appropriations established by adoption of the budget constitute a limitation on expenditures (and encumbrances) which may be incurred. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year are increased by the planned use of specific reserves, and budget amendments approved by the Board of Education as a result of selected new revenue sources not included in the original budget (when permitted by law). These supplemental appropriations may occur subject to legal restriction, if the Board approves them because of a need, which exists which was not determined at the time the budget was adopted. There were no supplemental appropriations during the year:

Budgets are adopted annually on a basis consistent with GAAP. Appropriations authorized for the year, totaling \$36,343,936 are increased by the amount of encumbrances carried forward from the prior year, which totaled \$425,710.

The general fund is the only fund with a legally approved budget for the fiscal year ended June 30, 2022.

Budgets are established and used for individual capital projects fund expenditures as approved by a special referendum of the District's voters. The maximum project amount authorized is based primarily upon the cost of the project, plus any requirements for external borrowings, not annual appropriations. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

B) Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of yearend are presented as reservations of fund balance and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

SKANEATELES CENTRAL SCHOOL DISTRICT

Notes to the Financial Statement

For the Year Ended June 30, 2022

Note 2 - Stewardship, Compliance and Accountability (continued)

C) Fund Balance

i) Capital Projects Fund

The Capital Projects Fund had a deficit undesignated fund balance of \$28,285,867 at June 30, 2022, which is a result of bond anticipation notes, which are used as a temporary means of financing capital projects. These proceeds are not recognized as revenue but merely serve to provide cash to meet expenditures. This results in the creation of a fund deficit which will remain until the notes are replaced by permanent financing (i.e., bonds, grants-in-aid, or redemption from current appropriations).

ii) New York State Real Property Tax Law §1318

The portion of the District's fund balance subject to the New York State Real Property Tax Law §1318 limit exceeded the amount allowable, which is 4% of the District's budget for the upcoming school year. Actions the District plans to pursue to address this issue include funding reserves and utilizing fund balance for operations.

Note 3 - Cash and Cash Equivalents

Credit Risk – In compliance with the State Law, District investments are limited to obligations of the United States of America, obligations guaranteed by agencies of the United States of America where the payment of principal and interest are guaranteed by the United States of America, obligations of the State, time deposit accounts and certificates of deposit issued by a bank or trust company located in, and authorized to do business in, the State, and obligations used by other municipalities and authorities within the State.

Concentration of Credit Risk – To promote competition in rates and service costs, and to limit the risk of institutional failure, District deposits and investments are placed with multiple institutions. The District's investment policy limits the amounts that may be deposited with any one financial institution.

Interest Rate Risk – The District has an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from rising interest rates.

The District's aggregate bank balances (disclosed in the financial statements), included balances not covered by depository insurance at year-end, were appropriately collateralized with securities held by the pledging financial institution.

Restricted cash represent cash where use is limited by legal requirements. These assets represent amounts required by statute to be reserved for various purposes. Restricted cash as of year-end includes \$14,212,415 within the governmental funds.

SKANEATELES CENTRAL SCHOOL DISTRICT

Notes to the Financial Statement

For the Year Ended June 30, 2022

Note 3 - Cash and Cash Equivalents (continued)

Custodial Credit Risk - Custodial credit risk is the risk that in the event of a failure of a depository financial institution, the reporting entity may not recover its deposits. In accordance with the District's investment and deposit policy, all deposits of the District including interest bearing demand accounts and certificates of deposit, in excess of the amount insured under the provisions of the Federal Deposit Insurance Act (FDIC) shall be secured by a pledge of securities with an aggregate value equal to 100% of the aggregate amount of deposits.

The District restricts the securities to the following eligible items:

- Obligations issued, fully insured or guaranteed as to the payment of principal and interest, by the United States Treasury and United States agencies.
- Obligations issued or fully insured or guaranteed by New York State and its localities.
- Obligations issued by other than New York State rated in one of the three highest rating categories by at least one nationally recognized statistical rating organizations.

Note 4 - Investments

External Investment Pool

The District participates in an external investment pool, the New York Cooperative Liquid Assets Securities System (NYCLASS). NYCLASS was established in September 1989, as a cooperative investment arrangement organized under the NYCLASS Municipal Cooperation Agreement made pursuant to New York General Municipal Law, Article 3A and 5-G. NYCLASS is available for investment by any New York State Municipal Cooperation or District. NYCLASS operates like a money market mutual fund with shares valued at \$1.00. NYCLASS is administered by and elected governing board of up to fifteen members. A board member must be either a participant's chief fiscal officer, other designated officer, or employee of the participant who has knowledge and expertise in financial matters. The board invests cooperative funds only in securities that are legal for public funds investment in New York. The board limits these investments to repurchase agreements collateralized 102% with U.S. Treasury securities and agency securities backed by the full faith and credit of the U.S. Government, U.S. Treasury bills and notes, obligations of the state of New York, collateralized bank deposits, and other U.S. government guaranteed obligations. NYCLASS measures its investments at fair value in accordance with GASB standards. NYCLASS reports the amortized cost of investments to participants, which approximates fair value. NYCLASS is rated by S&P Global Ratings and the current rating was AAAM as of March 31, 2022, whereby AAAM is defined as extremely strong capacity to maintain principal stability and limit exposure to principal losses due to credit market and/or liquidity risks. As of June 30, 2022, the District's investment in NYCLASS totaled \$4,930,275 which are included in cash and cash equivalents for the general fund. Financial statements, independently audited, of NYCLASS are available from NYCLASS at www.newyorkclass.org.

Total government activities	<u>\$ 301,356</u>	<u>\$ 301,356</u>	<u>\$ 699,520</u>	<u>\$ 699,520</u>

Interfund receivables and payables between governmental activities are eliminated on the Statement of Net Position. The District typically loans resources between funds for the purpose of mitigating the effects of transient cash flow issues. All interfund payables are not necessarily expected to be repaid within one year.

Transfers are used to finance certain special aid programs, support capital project expenditures, school lunch programs and debt service expenditures.

Note 10—Pension Plans

A) General Information

The District participates in the New York State Teacher’s Retirement System (TRS) and the New York State and Local Employee’s Retirement System (ERS). These are cost-sharing multiple employer public employee retirement systems. The Systems offer a wide range of plans and benefits, which are related to years of service and final average salary, vesting of retirement benefits, death, and disability.

B) Provisions and Administration

A 10 member Board of Trustees of the New York State Teachers’ Retirement Board administers TRS. TRS provides benefits to plan members and beneficiaries as authorized by the Education Law and the New York State Retirement and Social Security Law (NYSRSSL). Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors and administrators employed in New York Public Schools and BOCES who elected to participate in TRS. Once a public employer elects to participate in the system, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired.

SKANEATELES CENTRAL SCHOOL DISTRICT

Notes to the Financial Statement

For the Year Ended June 30, 2022

Note 10–Pension Plans (continued)

Benefits can be changed for future members only by enactment of a State statute. TRS issues a publicly available financial report that contains financial statements and required supplementary information. The report may be obtained by writing to NYRS, 10 Corporate Woods Drive, Albany, New York 12211-2395 or by referring to the TRS Comprehensive Annual Financial report, which can be found on the System’s website at www.nystrs.org.

ERS provides retirement benefits as well as death and disability benefits. The net position of the System is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the System. The Comptroller of the State of New York serves as the trustee of the Fund and is the administrative head of the System. NYSRSSL govern obligations of employers and employees to contribute, and benefits to employees. Once a public employer elects to participate in the System, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees’ Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The System is included in the State’s financial report as a pension trust fund. ERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to NYSERS, Office of the State Comptroller, 110 State Street, Albany, New York 12244 or by referring to the ERS Comprehensive Annual Report, which can be found at www.osc.state.ny.us/retire/publications/index.php.

C) Funding Policies

The Systems are noncontributory except for employees who joined after July 27, 1976, who contribute 3 percent of their salary for the first ten years of membership, and employees who joined on or after January 1, 2010 who generally contribute 3.0 to 3.5 percent of their salary for their entire length of service. In addition, employee contribution rates under ERS tier VI vary based on a sliding salary scale. For TRS, contribution rates are established annually by the New York State Teachers’ Retirement Board pursuant to Article 11 of the Education Law. For ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers’ contributions for the ERS’ fiscal year ended March 31. The District paid 100% of the required contributions as billed by the TRS and ERS for the current year.

The District’s share of the required contributions for the current year and two preceding years were equal to 100% of the contributions required, were as follows:

<u>Contributions</u>	<u>NYSTRS</u>	<u>NYSERS</u>
2022	1,175,666	386,904

D) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources related to Pensions

At June 30, the District reported the following asset/ (liability) for its proportionate share of the net pension asset /(liability) for each of the Systems. The net pension asset/ (liability) was measured as of March 31, 2022 for ERS and June 30, 2021 for TRS. The total pension asset/ (liability) used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District’s proportion of the net pension asset/ (liability) was based on a projection of the District’s long-term share of contributions to the Systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the TRS and ERS Systems in reports provided to the District.

Thereafter	-	403,150
Net, total	\$ (1,062,469)	\$ (8,212,395)

E) Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

	ERS	TRS
Measurement date	March 31, 2022	June 30, 2021
Actuarial valuation date	April 1, 2021	June 30, 2020
Interest rate	5.9%	6.95%
Salary scale	4.4%	5.18%-1.95%
Decrement tables	April 1, 2015- March 31, 2020 System's Experience	July 1, 2009 & June 30, 2014 System's Experience
Inflation rate	2.7%	2.40%

For ERS, annuitant mortality rates are based on April 1, 2015 – March 31, 2020 System experience with adjustments for mortality improvements based on the Society of Actuaries' Scale MP-2020. For TRS, annuitant mortality rates are based on plan member experience with adjustments for mortality improvements based on Society of Actuaries Scale MP2020, applied on a generational basis.

Note 10–Pension Plans (continued)

For ERS, the long term rate of return on pension plan investments was determined using a building block method in which best estimate ranges of expected future real rates of return (expected returns net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by each the target asset allocation percentage and by adding expected inflation.

For TRS, the long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, Selection of Economic Assumptions for Measuring Pension Obligations. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class as of the measurement date of 6/30/21. Best estimates of the arithmetic real rates of return for each major asset class included in the target asset allocation are summarized as follows:

Asset Type	ERS		TRS	
	Target Allocation	Long-term expected Real Rate of Return	Target Allocation	Long-term expected Real Rate of Return
Domestic equity	32%	3.36%	33%	6.80%
International equity	15%	5.85%	16%	7.60%

	<u>100%</u>	<u>5.90%</u>	<u>100%</u>	<u>6.95%</u>

The real rate of return is net of the long-term inflation assumption of 2.5% for ERS and 2.4% for TRS.

For the Year Ended June 30, 2022

Note 10–Pension Plans (continued)

F) Discount Rate

The discount rate used to calculate the total pension liability was 5.9% for ERS and 7.10% for TRS. The projection of cash flows used to determine the discount rate assumes that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially. Based upon the assumptions, the Systems’ fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G) Sensitivity of the Proportionate Share of the Net Pension Liability to the Discount Rate Assumption

The following presents the District’s proportionate share of the net pension liability calculated using the discount rate of 5.9% for ERS and 7.10% for TRS, as well as what the District’s proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1- percentage point lower (4.9% for ERS and 5.95% for TRS) or 1-percentage point higher (6.9% for ERS and 7.95% for TRS) than the current rate:

ERS	1% Decrease (4.9%)	Current Assumption (5.9%)	1% Increase (6.9%)
	<hr/>	<hr/>	<hr/>
Employer's proportionate share of the net pension asset (liability)	\$ (1,651,089)	\$ 641,448	\$ 2,559,051
TRS	1% Decrease (5.95%)	Current Assumption (6.95%)	1% Increase (7.95%)
	<hr/>	<hr/>	<hr/>
Employer's proportionate share of the net pension asset (liability)	\$ 1,321,673	\$ 12,595,108	\$ 6,526,320

Changes of assumptions about future economic or demographic factors or other inputs are amortized over a closed period equal to the average of the expected service lives of all employees that are provided with pension benefits.

Collective (all participating employers) pension expense includes certain current period changes in the collective net pension asset (liability), projected earnings on pension plan investments, and the amortization of deferred outflows of resources and deferred inflows of resources for the current period. The collective pension expense is \$369,723,000 for ERS and \$3,727,814,187 for TRS.

H) Payables to the Pension Plan

For ERS, employer contributions are paid annually based on the System’s fiscal year which ends on March 31st. Accrued retirement contributions as of June 30, 2022 represent the projected employer contribution for the period of April 1, 2022 through June 30, 2022 based on paid ERS wages multiplied by the employer’s contribution rate, by tier. Accrued retirement contributions as of June 30, 2022 amounted to \$105,804.

For TRS, employer and employee contributions for the fiscal year ended June 30, 2022 are paid to the System in September, October and November 2022 through a state aid intercept. Accrued retirement contributions as of June 30, 2022 represent employee and employer contributions for the fiscal year ended June 30, 2022 based on paid TRS wages multiplied by the employer’s contribution rate, by tier and employee contributions for the fiscal year as reported to the TRS System. Accrued retirement contributions as of June 30, 2022 amounted to \$1,379,565.

A) General Information About the OPEB Plan

Plan Description – The District’s defined benefit OPEB plan, provides OPEB for all permanent full-time general and public safety employees of the District and their eligible dependents. The plan is a single-employer defined benefit OPEB plan administered by the District. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the District Board. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

B) OPEB Liability

The District’s total OPEB liability of \$40,528,498 was measured as of June 30, 2022, and was determined by an actuarial valuation as of July 1, 2020. The actuarial valuation as of July 1, 2020 was projected to the measurement date of June 30, 2022.

Actuarial Assumptions and Other Inputs – The total OPEB liability in the June 30, 2021 financial reporting valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Salary Increases	2.60 percent, average, including inflation
Discount Rate	3.54 percent
Healthcare Cost Trend Rates	5.3 percent to 4.10 percent over 55 years

Since the OPEB is not funded, the selection of the discount rate is consistent with the GASB 75 standards discounting unfunded liabilities based on a yield or index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Index and increased from 2.16% as of June 30, 2021 to 3.54% as of June 30, 2022.

Mortality rates were based on RP-2014 Adjusted to 2006 Total Dataset Mortality Table projected to the valuation date with Scale MP-2016.

Note 12–Risk Management

A) General Information

The District is exposed to various risks of loss related to torts, theft, damage, injuries, errors and omissions, natural disasters and other risks. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past two years.

B) Health Plan

For its employee health and accident insurance coverage, the District is a participant in the Cayuga-Onondaga School Employees Healthcare Plan, is a municipal cooperative health plan operating under a limited certificate of authority granted by the New York State superintendent of insurance. The plan is not a licensed insurer and the District is subject to a contingent assessment liability. A contingent assessment liability represents an assessment by the plan to all participating districts to fund the plan to meet minimum statutory reserve and surplus requirements as required by New York State Insurance law. Municipal cooperative health benefit plans are formed under Article 47 of the New York State Insurance Law and are health risk-sharing agreements that permit municipalities to combine to self-fund health benefits for their employees. This public entity risk pool currently has 8 school districts and one BOCES as plan members. The District pays an annual premium to the plan for this health insurance coverage. The Cayuga-Onondaga School Employees Healthcare Plan is considered a self-sustaining risk pool that will provide coverage for its members up to \$200,000 per insured event. The Plan uses reinsurance agreements to reduce its exposure to large losses on insured events. The Plan obtains independent coverage for insured events in excess of \$200,000 and the District has essentially transferred all related risk to the plan. The Plan has separate audited financial statements that are not included as a component unit of the District. The District's share of premiums for the year ended June 30, was \$2,917,192.

Note 13–Commitments, Contingencies and Concentrations

A) Litigation

There are currently tax certiorari claims pending against the District for which the financial impact, if any, cannot be determined at this time. The District plans on funding any settlements from the tax certiorari reserve.

B) Grants

The District has received grants, which are subject to audit by agencies of the State and Federal Governments. Such audits may result in disallowances and a request for a return of funds. Based on prior years' experience, the District's administration believes disallowances, if any, will be immaterial.

C) Collective Bargaining Agreements

The majority of the District's employees are covered by various collective bargaining agreements. The Skaneateles Teachers Association agreement represents the largest percentage of employees covered by a collective bargaining agreement. Employees represented by this agreement include kindergarten teacher(s), elementary teacher(s), secondary teacher(s), school librarian(s), school nurse teacher, guidance counselor, reading coordinator, school psychologist, speech therapist, physical education teacher, music coordinator, industrial arts teacher and others as defined in the agreement. This agreement expires on June 30, 2023.

Note 14–Rental of District Property

The District leases property to BOCES and other individuals. Total rental income for the 2021-22 fiscal year totaled \$105,839.

Note 15–Tax Abatement

The Onondaga County Industrial Development Agency (OCIDA), and the District enter into various property tax abatement programs for the purpose of Economic Development. As a result the District property tax revenue was reduced \$235,989. The District received payments in lieu of tax (PILOT) payments totaling \$211,640 to help offset the property tax reduction.

Note 16–Subsequent Events

On August 16, 2022, the District issued Bond Anticipation Notes. See Note 8 for further description of these Notes. Management has evaluated subsequent events through September 28, 2022, which is the date the financial statements were available to be issued.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING
STANDARDS***

INDEPENDENT AUDITOR'S REPORT

Board of Education
Skaneateles Central School District
Skaneateles, New York

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Skaneateles Central School District as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 4, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Skaneateles Central School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of Skaneateles Central School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Skaneateles Central School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH UNIFORM GUIDANCE**

INDEPENDENT AUDITOR'S REPORT

Board of Education
Skaneateles Central School District
Skaneateles, New York

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Skaneateles Central School District's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Skaneateles Central School District's major federal programs for the year ended June 30, 2022. Skaneateles Central School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Skaneateles Central School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Skaneateles Central School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Skaneateles Central School District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Skaneateles Central School District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Skaneateles Central School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Skaneateles Central School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Skaneateles Central School District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Skaneateles Central School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Skaneateles Central School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

SKANEATELES CENTRAL SCHOOL DISTRICT

Notes to Schedule of Expenditures of Federal Awards

1. Basis of Presentation

The accompanying schedule of expenditures of federal awards presents the activity of federal award programs administered by the Skaneateles Central School District, which is described in Note 1 to the District's accompanying financial statements. Federal awards that are included in the schedule may be received directly from federal agencies, as well as federal awards that are passed through from other government agencies. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. CFDA numbers and pass-through numbers are provided, when available.

2. Summary of Significant Accounting Policies

The accompanying schedule of expenditures of federal awards is a summary of the activity of Skaneateles Central School District's federal award programs and presents transactions that are included in the financial statements of the District, as required by accounting principles generally accepted in the United States of America. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. Indirect Cost Rate

Indirect costs are included in the reported expenditures to the extent they are included in the federal financial reports used as the source for the data provided. Skaneateles Central School District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance, as the District has an annual negotiated indirect cost rate with the New York State Education Department.

4. Food Distribution

The District is the recipient of a federal award program that does not result in cash receipts or disbursements. The District was granted approximately \$9,080 of commodities under the National School Lunch Program (CFDA 10.555).
