Subject: Covid-19 rules change- action required.
Date: Monday, January 10, 2022 1:27:16 PM

Good morning team and welcome back. Given recent changes to COVID-19 rules and regulations I wanted to highlight one specific change in language that will impact our team.

The definition of "fully vaccinated" recently changed to include a booster shot and does not take effect until 2 weeks following that booster shot. This means that unless you have received a booster shot more than 2 weeks ago, you will be subject to unvaccinated rules and regulations with regard to quarantine, isolation orders, and most importantly **mandated weekly staff testing**.

Despite the immediacy of this order, we are well aware that people cannot accommodate these changes overnight. We want to provide our team members with as much time as possible to receive their booster where applicable. We will be implementing a **grace period that will conclude on Feb 28, 2022** in order to give those eligible a chance to identify convenient opportunities to obtain their booster shot. We are also sensitive to the demand for these shots at the moment.

- If you are not yet eligible to receive a booster shot this date does not apply as you are considered fully vaccinated until eligible for your booster.
- If you are unvaccinated and don't intend to get vaccinated you will still be subject to weekly testing.
- If you are already 2 weeks+ from your booster (or will be) by Feb 28, 2022, there is nothing more to do beyond providing a proof to your school nurse.
- If you are not assigned to a building please provide proof of vaccination/ booster shot to your supervisor.

We ask that you provide a copy of your proof of vaccination/ booster shot to our school nurses by February 28, 2022.

I will continue to share information as it comes in but wanted you to have this with as much advanced notice as possible.

Thank you for all you have done and all you continue to do to keep our doors open for Skaneateles students.
