

Skaneateles Central School District

Excellence in Education

Community Early Learning Directors 2016-17

The four critical pillars of our approach to the educational program at Skaneateles Central are Stewardship, Leadership, Partnership, and Communications. Of our most important partners, the early learning providers within our community give many of our students and families an opportunity to start their formal learning at a young age through various approaches unique to each program. For more information on these programs, please contact the individuals listed below and/or visit their websites.

1. Skaneateles YMCA preschool - Dorothea Hughes and Shiela Card
